

## FISCAL MEMORANDUM

### SB 745 - HB 883

March 14, 2023

**SUMMARY OF BILL AS AMENDED (005705):** Expands the definition of abortion to include termination of an ectopic or molar pregnancy.

Establishes that the offense of criminal abortion does not include an abortion that is performed or attempted by a licensed physician in a licensed hospital or ambulatory surgical treatment center and the physician determined, using reasonable medical judgment that the abortion was necessary to prevent the death of the pregnant woman or to prevent serious risk of substantial and irreversible impairment of a major bodily function of the pregnant woman, and the physician performs or attempts to perform the abortion in the manner which, in using reasonable medical judgment, based upon the facts known to the physician at the time, provides the best opportunity for the unborn child to survive, unless using reasonable medical judgment, termination of the pregnancy in that manner would pose a greater risk of the death of the pregnant woman or substantial and irreversible impairment of a major bodily function.

Establishes that an abortion is not authorized and a greater risk to the pregnant woman does not exist under subdivision if either determination is based on a claim or diagnosis that the woman will engage in conduct that would result in her death or substantial and irreversible impairment of a major bodily function or for any reason relating to her mental health.

Eliminates the offense of attempt to procure a criminal miscarriage.
